

Bespoke interiors by award-winning designer

Juliette Byrne was recently named as one of the best 20 interior designers in Britain by the *Telegraph*, as well as featuring in the *House and Garden* top 100 interior designers for the third consecutive time. She was also nominated for a 2014 International Property Award for residential design. Her wealth of experience and the fact that she's lived her whole life in London make her an expert in its property industry.

The service Juliette and her accomplished design team can provide is second to none; their meticulous attention to detail is one of their best attributes. Juliette says, "We can help with every aspect of your house, from renovations to soft furnishings through installation and advice on artwork. Projects range from a London town house building project, to a ski chalet in Chamonix and the renovation of a Cotswolds house. Our philosophy is that nothing is too much trouble. We offer clients a bespoke interior design service tailored to each individual brief."
